

HOOK & BEAM

by KALEEN

2021 CATALOG

So Rare | SOR15-17

WHAT IS HOOK & BEAM?

Hook & Beam is Kaleen's newest division of high-quality machine-made broadloom carpeting. Unlike our existing Pure Life and Kaleen Broadloom lines, Hook & Beam is not handmade and can be produced at a much faster rate.

Three different construction types make up the Hook & Beam line – Jacquard Loomed, Circular Knit, and Wilton Loomed. You will find something familiar within each of these constructions regarding their wool yarns and even something new like the high-end New Zealand wool used in our Circular Knit styles.

JACQUARD LOOMED

Styles are 100% imported wool and feature all-new color lines and combinations. This master-class in construction provides complex design while still managing to capture our wool's exemplary texture.

CIRCULAR KNIT

This loom is best described as a giant sock or hosiery machine and is the first in the industry used to weave broadloom carpeting. Our Circular Knit construction features the use of high-end New Zealand wool in select styles. Known for its long strands, this wool, when spun, produces a reinforced yarn providing both texture and depth.

WILTON LOOMED

Styles feature space-dyed or hand spun yarns from 100% imported wool, resulting in exciting color lines and combinations. Our Wilton Loom pile is a long staple yarn, which produces a series of loop and cut-pile finishes.
